

SHORT AND MAIN TALKS 2014-2015

This update: 09 March 2014

Thank you to all who have prepared and delivered talks in the past. Please keep on volunteering. Whilst we started the 'Short Talk' series with constellations, anything relevant to topical observing events for the month would be equally appropriate for this slot. With regard to the 'Main Talk', any aspect of astronomy and space is welcome.

If you have never tried to do a talk before, then please – 'have a go'. You are amongst friends and we (Judith, Rick, Julie, or Mark) are very happy to give practical help and advice. Please ask! If you have ideas for a talk you would like a speaker other than yourself to present, then please also let us know.

If you have signed up for a talk spot, but then realise you are unable to attend on that evening, please let us know as soon in advance as possible and we will arrange a swop.

	SPEAKER	TOPIC	DATE - WED	NOTES
Short	Ella Bryant	Build your own Observatory	02 April 2014	
Main	David James	Astronomical Standards and Timekeeping		
Short	Gary Palmer	Apollo Insignia	07 May 2014
