

SHORT AND MAIN TALKS 2012-2013

This update: 04 October 2012

Thank you to all who have prepared and delivered talks in the past. Please keep on volunteering. Whilst we started the 'Short Talk' series with constellations, anything relevant to topical observing events for the month would be equally appropriate for this slot. With regard to the 'Main Talk', any aspect of astronomy and space is welcome.

If you have never tried to do a talk before, then please – 'have a go'. You are amongst friends and we (Judith, Rick, Julie, or Mark) are very happy to give practical help and advice. Please ask! If you have ideas for a talk you would like a speaker other than yourself to present, then please also let us know.

If you have signed up for a talk spot, but then realise you are unable to attend on that evening, please let us know as soon in advance as possible and we will arrange a swop.

	SPEAKER	TOPIC	DATE - WED	NOTES
Short	David Hornby	Morphological Classification of Galaxies	03 October 2012	☺
Main	Bob Howard	Dark Flow and the Expanding Universe		☺
Short	Keith Hopper	An Update on Early Arabic Astronomy	07 November 2012
