

SHORT AND MAIN TALKS 2018-2019

This update: 16 September 2018

Thank you to all who have prepared and delivered talks in the past. Please keep on volunteering. Whilst we started the 'Short Talk' series with constellations, anything relevant to topical observing events for the month would be equally appropriate for this slot. With regard to the 'Main Talk', any aspect of astronomy and space is welcome.

If you have never tried to do a talk before, then please – 'have a go'. You are amongst friends and we (Judith, Rick, Julie, or Mark) are very happy to give practical help and advice. Please ask! If you have ideas for a talk you would like a speaker other than yourself to present, then please also let us know. Please aim to keep 'Short Talks' to 10-15 minutes and 'Main Talks' to 30-40 minutes, to allow time afterwards for members to chat to each other and for refreshments.

If you have signed up for a talk spot, but then realise you are unable to attend on that evening, please let us know as soon in advance as possible and we will arrange a swop.

	SPEAKER	TOPIC	DATE - WEDNESDAY	NOTES
Short	Julie Buckingham	Jupiter	03 October 2018	
Main	Rick Dooley	Gravity		
Short			07 November 2018
